Captain of American Ship Tells of Capture of Submarines Off Coast of France.

Confirmation of a story sent yesterday from Newport, R. I., of how two German submarines were captured by the aid and direction of a French aeroplane off La Pallice, France, on March 1, was brought to New York to-day by Capt. E. L. Smith of the American steamship Alaskan. The Alaskan left La Pallice in the night of March 1 in ballast, encountered very heavy weather and ran into Newport for coal.

Capt. Smith did not believe the Germans would sink a warship. United States ship in ballast and insisted on starting for New York over the protests of the French authorities. On the way out from La Pallice a French aeroplane overtook the Alaskan and circled about at a considerable height. The aeroplane spotted two submerged submarines which were apparently lying in wait for the Alaskan.

Patrol trawlers were summoned, nets were lowered, and before the submarine commanders knew what was happening their craft were exhausted. Capt. Smith says he understands the submarines were towed into La Pallice harbor.

## STOP HEADACHES BEFOREHAND

You never had a headache when you were well.

To keep well is to keep clean, inside.

To relieve headache, and to prevent it, keep the liver active and industrious and the bowels as regular as a clock.

Two generations of healthy, vigorous people have done this by taking one pill at bedtime, regularly—a large dose when nature gives the warning.

Colorless faces often show the absence of iron in the blood.

## LYNN WOMAN WAS CONFINED TO BED BY RHEUMATISM OF JOINTS

Enjoys Perfect Health Today After Suffering Tortures From Disease That Deformed Joints

RELEASE FROM CONSTANT PAIN TOO WONDERFUL FOR WORDS

"It's really wonderful to be free from pain at last, and how few who do not suffer can realize what it means to find relief," said Mrs. William B. Rounsville of 11 Cook Street, Lynn, Mass.

These photos show Mrs. Rounsville as she was—and is today.

"For more than 12 years I suffered from rheumatism of the joints. At first my joints were sore and stiff, and the pain would travel from one joint to the other. I paid very little attention to it, thinking the disease would wear away. Gradually I could feel the disease creeping from one joint to the other, until almost every joint in my body was involved and it was with extreme difficulty that I could get about.

"My feet were so sore and tender that I was unable to take more than a few steps at a time. After sitting any length of time I would have to have someone assist me when I attempted to get up, because of stiffness in my knee joints. I was unable to bend my knees, and only with great effort could I lift my feet over the door sill.

"Finally I could stand it no longer. I was compelled to go to bed and remain there, only leaving the bed when someone would occasionally carry me bodily to the dining room. I was helpless and suffering constantly, even the weight of the bed sheet would be unbearable.

"Var-n-e-sis was recommended, but I was determined not to take any more medicine, as my stomach was

## AUTO TRUCK'S BACK FIRE WAKES LOWER BROOKLYN

Vehicle Was in Front of du Pont Offices and Excited Neighbors Called Police.

A ten-ton truck, driven by Tony Carbello of No. 34 Walworth Street, stalled early to-day in front of No. 47 Fulton Street, Brooklyn, occupied by the Du Pont Powder Company.

When Carbello tried to start the truck, it back fired seven times. Alarmed by the reports, residents of the neighborhood called Police Headquarters. Headquarters queried the Navy Yard and notified Harbor A. Two policemen, with visions of a German plot started down the street. Excited pedestrians told them there was serious trouble on the water front. At Pier No. 4 the officers found a Booth Line steamer being loaded with grain. Followed by an excited crowd, they rushed back up Fulton Street and saw the Du Pont sign.

Carbello was still tinkering with his engine. "Powder," said the policeman. "Where's the explosion?" "Explosion?" asked Carbello. "Oh! That? It was my engine. She's all right now, thanks."

The truck was loaded with patent medicine and belonged to A. Noden of No. 10 Bridge Street, Manhattan. There was no powder or other explosive in the warehouse.

All were pleased.
